

## Lisa Blake, Mortgage Loan Originator

A native of Huntsville, Lisa Blake has seen Madison County grow and change over the 20 years that she has worked in the mortgage industry. Her role as a lender is to help you make the best choice for both your long-term and short-term goals. As Lisa says, "The home mortgage is an extremely personal and confidential transaction, so it's essential that I gain the trust of my clients. I find it easy to communicate with people and build rapport, and that helps my clients gain confidence in the mortgage process. I have a passion for what I do, so I am excited for my clients when I am able to take them from an application to the closing table." As an experienced professional, Lisa knows the value of honest communication to keep you informed of your loan process. Adds Lisa, "If you are looking for a mortgage loan originator who will do her best to make the process worry-free for you, I would very much enjoy the opportunity to serve you."
